# Flash Report Consolidated Basis

### **Results for Fiscal 2018**

(April 1, 2018—March 31, 2019) <under IFRS>

May 9, 2019

Company name: Nippon Steel Corporation

Stock listing: Tokyo, Nagoya, Sapporo, Fukuoka stock exchanges

Code number: 540

URL: https://www.nipponsteel.com/en/index.html

**Representative:**Eiji Hashimoto, Representative Director and President
Contact:
Fumiaki Ohnishi, General Manager, Public Relations Center

Telephone: +81-3-6867-2130
Scheduled date to Ordinary General Meeting of Shareholders: June 25, 2019
Scheduled date to pay dividends: June 26, 2019
Scheduled date to submit Securities Report: June 25, 2019

**Preparation of supplemental explanatory materials:** Yes

**Holding of quarterly financial results meeting:** Yes (for investment analysts)

(Figures of less than ¥1 million have been omitted.)

# 1. Consolidated Operating Results, Financial Position and Cash-Flows for Fiscal 2018 (April 1, 2018—March 31, 2019)

#### (1) Consolidated Operating Results

(Percentage figures are changes from the same period of the previous fiscal year.)

	Revenue	,	Business prof	it (*)	Operating profit .		Profit before Profit for the year		Profit for the year attributable to owners of the parent			
	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%
Fiscal 2018	6,177,947	8.1	336,941	16.7	265,111	(8.2)	248,769	(8.5)	257,579	21.4	251,169	38.9
Fiscal 2017	5,712,965	21.6	288,700	69.9	288,700	37.4	271,760	39.5	212,210	37.4	180,832	31.8

	Total comprel income for the		Basic earnings per share	Diluted earnings per share	Ratio of profit to total equity attributable to owners of the parent	Ratio of profit before income taxes to total assets	Ratio of business profit to revenue	Ratio of operating profit to revenue

Fiscal 2018	85,114	(72.7)	281.77	-	7.9	3.1	5.5	4.3
Fiscal 2017	311.759	20.2	204.87	-	6.0	3.6	5.1	5.1

(For reference) Share of profit in investments accounted for using the equity method :Fiscal 2018 ¥86,411 million Fiscal 2017 ¥65,657 million

#### (2) Consolidated Financial Position

(2) Consolitation 1 manetal 1 obtain								
	Total assets	Total equity	Total equity attributable to owners of the parent	Ratio of total equity attributable to owners of the parent to total assets	Total equity attributable to owners of the parent per share			
	Millions of yen	Millions of yen	Millions of yen	%	Yen			
Fiscal 2018	8,049,528	3,607,367	3,230,788	40.1	3,509.72			
Fiscal 2017	7,756,134	3,524,896	3,136,991	40.4	3,554.21			

#### (3) Consolidated Statements of Cash-Flows

	Cash flows from operating activities	Cash flows from investing activities	Cash flows from financing activities	Cash and cash equivalents at end of the year	
	Millions of yen	Millions of yen	Millions of yen	Millions of yen	
Fiscal 2018	452,341	(381,805)	(42,900)	163,176	
Fiscal 2017	485,539	(363,170)	(104,969)	142,869	

<sup>(\*)</sup>Business Profit on Consolidated Statements of Profit or Loss indicates the results of sustainable business activities, and is an important measure to compare and evaluate the Company's consolidated performance continuously. It is defined as being deducted Cost of sales, Selling general and administrative expenses and Other operating expenses from Revenue, and added Equity in profit of unconsolidated subsidiaries and affiliates and Other operating income. Other operating income and expenses is composed mainly of Dividend income, Foreign exchange gains or losses, Loss on disposal of fixed assets.

#### 2. Dividends

Fiscal 2017	5,194,163	2,024,648	39.0	2,290.62			

(For reference) Shareholders' equity:

Fiscal 2018 ¥ 2,072,452 million Fiscal 2017 ¥ 2,024,648 million

(Note) The company adopted "Partial Amendments to Accounting Standard for Tax Effect Accounting" (Accounting Standards Board of Japan ("ASBJ") Guidance No. 28, February 16, 2018) in the beginning of the fiscal year, and reclassified differed tax asset/liability into fixed asset/liability retrospectively. Accordingly, Ratio of shareholders' equity to total assets for fiscal 2017 was recalculated.

#### (Adoption of IFRS)

The Company has disclosed its consolidated financial results based on International Financial Reporting Standards (IFRS) since fiscal 2018 onwards. Therefore, the financial results for fiscal 2017are reclassified based on IFRS.

For further details, please refer to page 9, "2. Basic Rationale for Selection of Accounting Standards"

#### (Explanation of the appropriate use of performance forecasts)

The forward-looking statements included in this flash report are based on the assumptions, forecasts, and plans of the Company as of the date on which this document is made public. The Company's actual results may differ substantially from such statements due to various risks and uncertainties.

<sup>\*</sup> This flash report is exempt from the audit procedures.

<sup>\*</sup> Explanation of the appropriate use of performance forecasts and other related items

#### 1. Summary of Results of Operations

# (1) Summary of Results of Operations and Financial Position for Fiscal Year Ended March 31, 2019 (Fiscal 2018) Overview of Conditions in Fiscal 2018

The global economy as a whole showed gradual growth during fiscal 2018, with ongoing economic growth in the United States and a continued stable economic trend in emerging countries in general, while China's economy showed some signs of a slowdown. The Japanese economy continued its modest recovery, with ongoing improvement in the employment environment and an increase in capital investment.

Domestic demand for steel remained solid in areas such as the automotive industry, and the overall demand for steel overseas increased. The domestic market remained strong in general on the back of solid demand and, the overseas market as a whole also remained firm despite a temporary decline in the third quarter.

In this business environment, the Nippon Steel & Sumitomo Metal (NSSMC) Group carried out various measures that were devised in its 2020 Mid-Term Management Plan established in March 2018. These measures were in line with the following five initiatives that were identified as activities to be tackled in the medium to long term: delivering materials and solutions responsive to changes in society and industry; strengthening and expanding the global business; continuing to strengthen the "manufacturing capabilities" of domestic mother mills; utilizing advanced IT in steelmaking processes; and contributing to the achievement of a sustainable society (SDGs).

#### Operating Results by Business Segment in the Fiscal 2018

The NSSMC Group's business segments strived to respond to the changing business environment and to improve sales and earnings. An overview of operating results by business segment is shown below.

The Chemicals segment and New Materials segment were merged to form the Chemicals and Materials segment after Nippon Steel Chemical & Material Co., Ltd. was established in October 2018 following the merger of Nippon Steel & Sumikin Chemical Co., Ltd. and Nippon Steel & Sumikin Materials Co., Ltd.

			(	(Billions of yen)	
	Rev	enue	<b>Business Profit</b>		
	Fiscal 2018	Fiscal 2017	Fiscal 2018	Fiscal 2017	
Steelmaking and Steel Fabrication	5,454.5	5,017.2	274.6	245.7	
Engineering and Construction	356.7	294.2	9.4	9.1	
Chemicals and Materials <sup>1</sup>	247.0	237.8	25.0	17.3	
System Solutions	267.5	244.2	26.5	23.2	
Total	6,325.8	5,793.5	335.8	295.5	
Adjustments <sup>2</sup>	(147.8)	(80.5)	1.1	(6.8)	
Consolidated total	6,177.9	5,712.9	336.9	288.7	

<sup>1</sup> The numbers of Chemicals and Materials segment for Fiscal 2017 are totaled the Chemicals segment and the New Materials segment.

<sup>2</sup> Including the amount of adjustment for IFRS

#### **Steelmaking and Steel Fabrication**

The Steelmaking and Steel Fabrication segment strived to rebuild its "strength in manufacturing" and "strength in sales and marketing" and restore its profit base, with safety as the foremost priority. In Japan, NSSMC continued to work on building optimal production frameworks, which included Wakayama Works' shift to advanced blast furnace and Yawata Works' construction of new continuous casting facilities. NSSMC also carried out ongoing initiatives to maintain and increase the soundness of facilities through the introduction of the latest facilities and refurbishing of existing facilities. Relining of a blast furnace at Hokkai Iron & Coke Corporation, which handles the Muroran Works' up stream processes, and of a coke oven at the Nagoya Works are among these initiatives. The decline in Japan's working population was also addressed with activities to secure enough workers and to ensure succession to the next generation. They included promotion of diversity in hiring, succession of technical skills from a long-term perspective, personnel development measures, labor-saving measures (use of IT and automation) to cope with the worker shortage caused by the decline in the population, more stable production, and an increase in productivity.

Concerning overseas operations, NSSMC focused on deploying management resources in markets showing steady growth in demand and fields where it can apply the strengths of its technology and products, seeking to contribute to self-sufficient production in the countries concerned and increasing the profitability of its own overseas businesses at the same time. Since fiscal 2018, NSSMC has carried out and still continues proceedings for the joint acquisition of EssarSteel India Limited, an integrated blast furnace steelmaker in India, with ArcelorMittal to secure an integrated steelworks base in the growing Asian market. Upon completion of the acquisition, NSSMC and AcelorMittal will be able to capitalize on India's growing steel demand in the medium- to long-term as a steel manufacturer with an integrated steelworks facility in India.

Ongoing initiatives were also carried out to strengthen the group's business structure. Nisshin Steel Co., Ltd. was made a wholly-owned subsidiary in January 2019 and the NSSMC Group's stainless steel business was restructured in April by reorganizing and integrating the stainless steel sheet business and the welded stainless steel pipe business, with the aim of further enhancing the competitiveness of these businesses. In the special steel business, Sanyo Special Steel Co., Ltd. became a subsidiary of NSSMC in March and Ovako AB, a Swedish special steel manufacturer that became a wholly-owned subsidiary of Sanyo Special Steel. These changes are intended to enhance the technological strength and cost competitiveness of our bearing steel and other special steel products.

The Steelmaking and Steel Fabrication segment expanded the provision of solutions, such as in material development and processing technology, to address increasingly diversified, advanced changes in society and industries. In addition to the development of advanced materials, NSSMC has proposed new potentials for steel in a variety of fields. Examples include NSafe<sup>TM</sup>-AutoConcept, a new concept for next-generation vehicle structures that realizes a reduction in automobile body weight and the enhancement in collision safety by combining parts structure with processing technologies; COR-TEN<sup>TM</sup>, a material with four to eight times the weather resistance of conventional steel, which was adopted in the Second Torii Gate of Izu mo Taisha Grand Shrine; and SMart BEAM<sup>TM</sup>, a lightweight welded steel H-

beam that achieves a significant reduction in the weight of steel materials, adoption of which is increasing in construction of roadside convenience stores.

Concerning the promotion of world-leading technology development, at the 65th Okochi Awards, which recognizes outstanding achievements in fields such as production engineering, NSSMC won the Okochi Memorial Production Award for its "development of an ultra-high-tensile material for bridge cables that will reduce impact on the environment." NSSMC also received two awards at the traditional and prestigious 51st Ichimura Awards, which recognize technical developers who have contributed to progress in science and technology and advancements in industries. Specifically, they were the Ichimura Prize in Industry for Distinguished Achievement for the "development of thick, high-ductility steel plates to improve safety in collisions between boats," and the Ichimura Prize in Industry against Global Warming for Distinguished Achievement for the "development of high-strength stainless steel for high-pressure hydrogen to accelerate initiatives to achieve a hydrogen society."

With regard to environmental initiatives, NSSMC has been contributing to the conservation of energy, the reduction of CO<sub>2</sub> emissions, and the building of a recycling-oriented society. In fiscal 2018 NSSMC achieved a total of three million tons on an accumulated basis of plastic recycling using its method of converting raw chemical materials in coke ovens that was launched in 2000. This has resulted in a reduction of around 9.6 million tons of CO<sub>2</sub> emissions and prevention of around 12 million cubic meters of waste that would otherwise have been sent to landfills.

Furthermore, NSSMC also continued to strive to reduce raw material and fuel costs and improve production yield, from the perspective of cost reduction, and to seek the understanding and cooperation of its customers in adjusting steel product prices, given the surge in raw material prices and other factors. The Steelmaking and Steel Fabrication segment recorded revenue of ¥5,454.5 billion and business profit of ¥274.6 billion.

#### **Engineering and Construction**

Nippon Steel & Sumikin Engineering Co., Ltd. (renamed Nippon Steel Engineering Co., Ltd. as of April 1, 2019) builds and operates plants in the steelworks, environmental and energy fields, and provides total engineering technology worldwide in a variety of fields such as large-scale steel structures in buildings, ultra-high-rise buildings and pipelines. In fiscal 2018, due to a steady stream of orders received in the domestic energy field and the continued solid business environment in the domestic construction and environment-related sectors, the company achieved a high-level of orders similar to that in fiscal 2017. Strict control of project execution led to steady progress toward project completions. As a result, the Engineering and Construction segment recorded revenue of \(\frac{1}{2}\)356.7 billion and business profit of \(\frac{1}{2}\)9.4 billion.

#### **Chemicals and Materials**

Nippon Steel Chemical & Material Co., Ltd. was formed through a merger of two group companies in October 2018. The company continued to perform well in both the domestic and overseas markets with its needle coke, the mainstay of its coal tar chemicals business, due to ongoing demand for graphite electrode materials. In the chemicals business, styrene monomer prices fell briefly due to a price decrease and a weaker supply and demand balance for crude oil, but prices are now on a recovery trend. In the functional materials business, some signs of weakness were seen in sales of

materials for smartphones and semiconductors, but steady sales were achieved in resists for LCDs, organic EL materials and metal foils. The composite materials business achieved its record-high sales due to a growth in sales of carbon fiber composite materials for the civil engineering and construction fields, primarily in the areas of repairs and reinforcements. The Chemicals and Materials segment posted revenue of ¥247.0 billion and business profit of ¥25.0 billion.

#### **System Solutions**

NS Solutions Corporation (renamed Nippon Steel Solutions Co., Ltd. as of April 1, 2019) provides advanced solution services and other comprehensive solutions in the planning, configuration, operation, and maintenance of IT systems for clients in a wide range of business fields. During fiscal 2018, against the backdrop of robust system investments stemming mainly from customers' advanced operational needs, the company's business environment continued to be favorable. In addition to developing safe, protective solutions at factories and other work sites that make use of IoT technology and developing platforms to analyze data based on AI technology, NS Solutions proceeded proactively in making changings to the company's systems following the corporate name change to Nippon Steel Corporation and the reorganization of the group. The System Solutions segment recorded revenue of ¥267.5 billion and business profit of ¥26.5 billion.

#### Revenue and Profit

Consolidated results for fiscal 2018 were mainly affected by natural disasters such as heavy rains and typhoons, an overall cost increase, stemming from a surge in prices of primary raw materials, rises in costs of commodity materials, other material procurement costs, and distribution costs, and by the negative impact of differences in inventory evaluations by NSSMC and its group companies. Meanwhile, in addition to corporate-wide efforts to implement measures to stabilize facilities and operations and the steady execution of cost reduction measures, positive factors included an improvement in steel product prices, driven mainly by a rise in overseas markets, especially in the first half of fiscal 2018, and profit improvement in business segments other than Steelmaking and Steel Fabrication. As a result, NSSMC posted revenue of ¥6,177.9 billion, business profit of ¥336.9 billion and profit for the year attributable to owners of the parent of ¥251.1 billion.

#### Assets, Liabilities, Equity, and Cash Flows

Consolidated total assets as of March 31, 2019 were \(\pm\)8,049.5 billion, an increase of \(\pm\)293.3 billion as compared to as of March 31, 2018. This increase was primarily due to a rise in trade and other receivables of \(\pm\)136.2 billion, the inventories of \(\pm\)167.2 billion and property, plant and equipment of \(\pm\)122.8 billion mainly resulting from acquisition of Sanyo Special Steel Co., Ltd. and Ovako AB, which offset a decrease in other financial assets (non-current) of \(\pm\)194.9 billion caused by a fair value decrease and sales of investment securities.

Consolidated total liabilities as of March 31, 2019 were \(\pm\)4,442.1 billion, an increase of \(\pm\)210.9 billion as compared to as of March 31, 2018. This increase was primarily due to a rise in interest-bearing liabilities of \(\pm\)211.4 billion, from \(\pm\)2,157.7 billion as of March 31, 2018 to \(\pm\)2,369.2 billion as of March 31, 2019.

Consolidated total equity as of March 31, 2019 was \(\frac{\pmax}{3}\),607.3 billion, an increase of \(\frac{\pmax}{2}\)82.4 billion as compared to as of March 31, 2018. This increase was primarily due to profit for the year attributable to owners of the parent of \(\frac{\pmax}{2}\)51.1 billion and disposals of treasury stock of 73.3 billion, which offset a decrease in fair value of financial assets measured at fair value through other comprehensive income of \(\frac{\pmax}{2}\)86.6 billion, foreign exchange differences on translation of foreign operations of 60.5 billion and dividends of \(\frac{\pmax}{2}\)70.7 billion.

As a result, total equity attributable to owners of the parent at the end of fiscal 2018 amounted to ¥3,230.7 billion, and the ratio of interest-bearing debt to total equity attributable to owners of the parent (D/E ratio) was 0.73 times.

Cash flows from operating activities in fiscal 2018 amounted to an inflow of ¥452.3 billion. The main factors were inflows of ¥248.7 billion from profit before income taxes, depreciation and amortization of ¥408.6 billion and adjustment of ¥49.4 billion from losses from reorganization, as well as outflows from an increase in inventories of ¥129.4 billion and income taxes payment of ¥80.8 billion.

Cash flows from investing activities amounted to an outflow of ¥381.8 billion, as outflows from capital investments of ¥438.7 billion, investments in subsidiaries and associates of 38.4 billion such as Sanyo Special Steel Co., Ltd. and Ovako AB, and other items exceeded inflows which included proceeds of ¥87.6 billion from sales of investment securities.

The result was a free cash inflow of ¥70.5 billion in fiscal 2018 (compared to an inflow of ¥122.3 billion in fiscal 2017).

Cash flows from financing activities amounted to an outflow of \(\xi\)42.9 billion (compared to an outflow of \(\xi\)104.9 billion in fiscal 2017), largely due to the effective increase of interest-bearing debt of \(\xi\)134.7 billion after deducting the impact of increase in interest-bearing debt of \(\xi\)76.7 billion with the effect of acquisition of Sanyo Special Steel Co., Ltd. and Ovako AB. Other factors included the payment of cash dividends of \(\xi\)70.7 billion for the end of fiscal 2017 and 1st half of fiscal 2018.

As a result of these cash flows, cash and cash equivalents at the end of the fiscal year stood at ¥163.1 billion.

#### Basic Profit Distribution Policy and the Year-End Dividend Distribution

NSSMC's basic profit distribution policy is to pay dividends from distributable funds at the end of the first half (interim) and second half (year-end) of the fiscal year, in consideration of the consolidated operating results and such factors as capital requirements for investment and other activities aimed at raising corporate value and performance prospects, while also considering the financial structure of the Company on both consolidated and non-consolidated bases.

The Company has adopted a consolidated annual payout ratio target of around 30% as the benchmark for the "payment of dividends from distributable funds in consideration of the consolidated operating results."

The level of the first-half dividend is determined based on consideration of interim performance figures and forecasts for the full fiscal year performance.

Concerning dividend distribution, in accordance with the basic profit distribution policy described above, NSSMC paid a dividend of ¥40 per share for the end of the first half (interim). Regarding the fiscal year-end dividend, following the previously stated policy and as announced at the time of third quarter performance result (February 6, 2019), the Company now plans to request the approval of the General Meeting of Shareholders to distribute a year-end dividend payment of ¥40 per share (bringing the dividend for the full year to ¥80 per share and representing a consolidated payout ratio of 28.4%).

#### (2) Outlook for the Fiscal Year Ending March 31, 2020 (Fiscal 2019)

#### **Outlook for Operations in Fiscal 2019**

NSSMC anticipates that the overall global economy will continue to grow moderately, as the government in China has been focusing on implementing various measures to support its economy and the United States is likely to sustain stable economic conditions. The Japanese economy is also expected to maintain its recovery, supported by further improvements in the employment environments.

In Japan, demand for steel and steel market prices are forecast to remain firm. While overseas steel demand and market conditions remain strong at present, there is a risk of economic downturn depending on the success or failure of economic measures by the Chinese government and the direction taken regarding the US-China trade issues. Developments will require close monitoring.

NSSMC is unable at this time to establish reasonably accurate earnings estimates for fiscal 2019. This is due to ongoing initiatives to secure appropriate margins that enable us to sustain business, and the fact that NSSMC is under negotiation with customers regarding possible improvement of steel product prices, in light of the impacts of increased costs, stemming from a rise in prices of primary raw materials as well as rises in costs of commodity materials, other material procurement, and distribution. We will disclose earnings forecasts when reasonable estimates become possible.

Through the execution of the 2020 Mid-Term Management Plan, the NSSMC Group will continue to forge manufacturing capabilities in its Japanese mother mills while addressing megatrends sparked by major social and industrial changes such as rapid innovation in IT, automakers' growing need for lighter and stronger vehicles and a shift to electric and other new energy vehicles. NSSMC is also striving to advance towards its aim of being "the best steelmaker with world-leading capabilities" by further improving its capabilities through tireless pursuit of three elements — technological innovation, cost competitiveness, and global reach — and by "creating the value of steel".

While NSSMC achieved a certain level of consolidated results in fiscal 2018, its non-consolidated results have stayed at a low level in the last few years, and we recognize that we need to rebuild and strengthen our profit base. With many of its steelworks, which began operation during Japan's postwar high economic growth period, celebrating a 50-year milestone of their operation, and with a generation change under way in its workforce, NSSMC intends to overcome a major structural reform, which may be described as its second foundation stage, and restore its profit base in order to secure appropriate sales prices to secure appropriate margins that enable us to sustain business.

Specifically, in addition to the steady execution of various measures set out in the Mid-Term Management Plan, which are aimed at rebuilding NSSMC's "strength in manufacturing" and enhancing its "strength in marketing and sales," we will further enhance asset compression measures and raise the efficiency of capital investment to reinforce the plan, while promoting drastic measures to strengthen our profit base.

In April 2019 the company name was changed to "Nippon Steel Corporation," this signifies that while inheriting what biologists call "hybrid vigor," we will move forward and grow in the world market, as a global steelmaker with origins in Japan.

#### Outlook for Distribution of Dividends for Fiscal 2019

Nippon Steel has not determined a dividend distribution plan for fiscal 2019 due to the inability to establish reasonable earnings forecasts, as stated above. The dividend distribution plan will be disclosed when it becomes available.

#### 2. Basic Rationale for Selection of Accounting Standards

NSSMC has applied the International Financial Reporting Standards (IFRS) to financial statements for the fiscal year ending March 31, 2018 onwards for purposes such as to increase corporate value through enhancement of global business development and improve international comparability of financial information in capital markets.

The Company has set the date of transition to the IFRS as April 1, 2016 in the Registration Statement on Form F-4 (the "Form F-4") that the Company filed with the U.S. Securities and Exchange Commission (the "SEC") on November 2, 2018. The Company has started to prepare its consolidated financial statements by adopting the IFRS since the consolidated fiscal year ending March 31, 2018.

The provisions regarding the first-time adoption, provided in IFRS 1, were adopted to the consolidated financial statements for the consolidated fiscal year ending March 31, 2018 in Form F-4, and the reconciliations from the Japanese GAAP to the IFRS have been prepared for the date of the transition to the IFRS, the consolidated fiscal year ending March 31, 2017, and the consolidated fiscal year ending March 31, 2018.

For this reason, the preparation of the consolidated financial statements for this fiscal year prepared in accordance with the IFRS do not fall under a first-time adoption. Therefore, the Company did not prepare the reconciliations from the Japanese GAAP to the IFRS for this fiscal year, which are required by IFRS 1 to be prepared upon the first-time adoption of the IFRS.

A copy of the registration statement on Form F-4 can be reviewed and obtained on EDGAR, the SEC's Electric Data Gathering, Analysis, and Retrieval system.

#### (5) Notes to the Consolidated Financial Statements

#### (Going Concern Assumption)

None

#### (Changes in Accounting Policies Required by the IFRS)

The Company has adopted IFRS 15 "Revenue from Contracts with Customers" from the fiscal year ended March 31, 2019.

In applying IFRS 15, the Company elected to apply the cumulative effect transition method where the cumulative effect of applying the standard is recognized at the date of initial application. The Company expects that the adoption of the standard had no significant effect on each amount recognized in the consolidated financial statements.

#### (Segment Information)

### 1) Summary of reportable segment

The Company engages in the steelmaking and steel fabrication business and acts as the holding company of the Group. The Group has four operating segments determined mainly based on product and service, which are steelmaking and steel fabrication, engineering and construction, chemicals and materials, and system solutions. Each operating segment shares the management strategy of the Group, while conducting its business activities independently from and in parallel with other companies of the Group. The following summary describes the operations of each reportable segment:

Reportable segment	Principal businesses
Steelmaking and steel fabrication	Manufacturing and marketing of steel products
Engineering and construction	Manufacturing and marketing of industrial machinery and equipment as well as steel structures, performance of construction work under contract, waste processing and recycling, and supplying electricity, gas, and heat
Chemicals and Materials	Manufacturing and marketing of coal-based chemical products, petrochemicals, electronic materials, materials and components for semiconductors and electronic parts, carbon fiber and composite products, and products that apply technologies for metal processing
System solutions	Computer systems engineering and consulting services; IT-enabled outsourcing and other services

# 2) Information on the amounts of revenue and profit for reportable segments

# Fiscal 2017 (April 1, 2017—March 31, 2018)

(Millions of Yen)

		Reportabl	le segment					IFRS	Consolidated
	Steelmaking and steel fabrication	Engineering and construction	Chemicals and Materials	System solutions	Subtotal	Adjustments	Total	Adjustment	
Revenue									
Revenue from external customers	4,983,335	260,908	234,108	190,310	5,668,663	-	5,668,663	44,302	5,712,965
Inter-segment revenue or transfers	33,910	33,360	3,709	53,889	124,868	(124,868)	-	-	-
Total	5,017,245	294,268	237,817	244,200	5,793,531	(124,868)	5,668,663	44,302	5,712,965
Segment profit <business profit="">*</business>	245,708	9,110	17,399	23,292	295,510	2,030	297,541	(8,840)	288,700

<sup>\*</sup> Segment profit for each reportable segment is measured using ordinary profit under Japanese GAAP, which is adjusted to Business Profit on IFRS-based consolidated statement of profit or loss.

Each figure on the consolidated financial result for 1st half and 2nd half of fiscal 2018 as well as fiscal 2017 is calculated based on International Financial Reporting Standards(IFRS), as the Company has disclosed the consolidated financial statements for the fiscal 2018 onwards based on IFRS.

(%1) Business Profit indicates the results of sustainable business activities, and is an important measure to compare and evaluate the Company's consolidated performance continuously. It is defined as being deducted Cost of sales, Selling general and administrative expenses and Other operating expenses from Revenue, and added Equity in profit of unconsolidated subsidiaries and affiliates and Other operating income. Other operating income and expenses is composed mainly of Dividend income, Foreign exchange gains or losses, Loss on disposal of fixed assets. (\*2) Additional line items refer to the items that are not recurrent and are remotely related to operational activities, but have a material impact in terms of amount.

#### [Dividends]

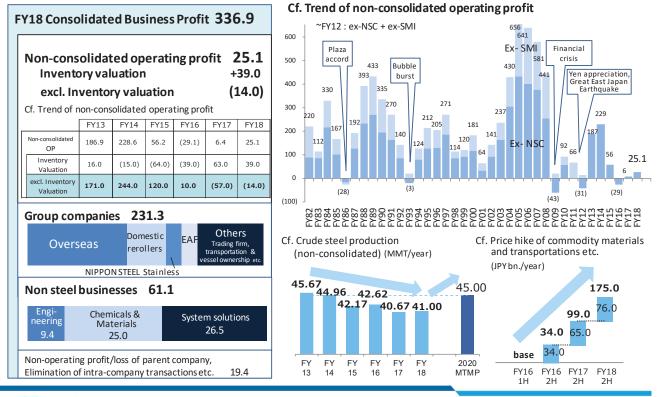

As announced on February 6, 2019, the Company plans to request the approval of the General Meeting of Shareholders to distribute a yearend dividend payment of ¥40 per share in accordance with the basic profit distribution policy previously described. This would bring the full-year dividend distribution amount to ¥80 per share, representing a consolidated payout ratio of 28.5%(IFRS basis) for fiscal 2018.

#### [Outlook for Operations in Fiscal 2019]

The Company is unable at this time to establish reasonably accurate earnings estimates for fiscal 2019. This is due to ongoing initiatives to secure appropriate sales prices to maintain continuity in supply, and the fact that the Company is under negotiation with customers regarding possible improvement of steel products, in light of the impacts of increased costs, stemming from a rise in prices of primary raw materials as well as rises in costs of commodity materials, other materials procurement, and distribution. the Company will disclose earnings forecasts when reasonable estimates become possible.

# Profit Structure (JPYbn.)

The majority of consolidated business profit came from group companies for the past 3 years.

NIPPON STEEL

 $\ensuremath{\mathbb{C}}$  2019 NIPPON STEEL CORPORATION All Rights Reserved

# **Initiatives for Profitability & Financial Soundness**

Accelerating initiatives to secure & strengthen the profit base,

1) initiatives to be carried out immediately and 2) initiatives to be taken when plans become concrete.

# Steady implementation of 2020MTMP's initiatives

Rebuild & enhance strength in manufacturing & sales and marketing

Manufacturing: Strengthen production line management & stabilize steel mills' operation

→ Realize our full potential of production & shipment

Sales and marketing: Make the value of our products/services and improve prices in light of impacts from cost increase (Key raw materials (iron ore & coking coal), auxiliary raw materials (alloys), refractory materials and transportation etc.)

→ Secure appropriate sales price

Improve operating level of competitive production lines and increase productivity by adopting advanced IT 
→ Utilize the advantages of our production framework and overcome our drawbacks
Evaluate each product / each area of business to define direction

Closure of Kashima Works' UO pipe mill by the end of Oct. 2019 (plan)
Reflecting the change of SD situation, decided to close Kashima's UO pipe mill and to transfer its production to Kimitsu, aiming to build stronger UO pipe business targeting at high-end market.
